<http://itunes.apple.com/us/app/voice4mail-speak-your-mail/id315808098?mt=8>

Voice4mail uses a simple 3-step process: 1) select your contact or multiple contacts from your address book, 2) record your message, 3) send.

Evernote By Evernote (Free)

<http://itunes.apple.com/us/lapp/evernote/id281796108?mt=8>

Evernote turns the iPhone, iPod Touch and iPad into an extension of your brain, helping you remember anything and everything that happens in your life. From notes to ideas to snapshots to recordings, put it all into Evernote and watch as it instantly synchronizes from your iPhone to your Mac or Windows desktop.

PaperDesk for iPad By WebSpinner, LLC (\$1.99)

<http://itunes.apple.com/us/app/paperdesk/id367552067?mt=8>

Leave behind your paper notebook for your next class lecture or meeting. PaperDesk is a simple, easy-to-use notebook replacement made specifically for the iPad. The entire design goal behind PaperDesk was to mimic, as closely as possible, a simple pad of paper with no unnecessary frills. Yet it still boasts features that enable quick and responsive note taking.

Todo+Cal+Sync By Synthesis AG (\$14.99)

<http://itunes.apple.com/us/app/todo-cal-sync/id293268928?mt=8>

Todo+Cal+Sync is an advanced todo and calendar management application specifically designed for the iPhone. Just swipe left+right to switch between todo, month, day and list views. It offers a simple visual interface to quickly access and organize multiple calendars, large lists of ideas, projects and things to do, while offering the full power of both hierarchically structured or free form categories/tags.

Pocket Picture Planner By Cognitopia Software LLC (Free)

<http://itunes.apple.com/us/lapp/pocket-picture-planner/id377968377?mt=8>

Use pictures to make plans! This app lets you view a visual calendar of scheduled activities created in Picture Planner on your Macintosh or Windows computer. All icons have graphic image, text label, and text to speech.

Augmentative and Alternative Communication Apps

Hidden Curriculum- Kids by AAPC (\$1.99)

<http://itunes.apple.com/us/app/hidden-curriculum-for-kids/id351224500?mt=8>

Children with autism spectrum disorders learn hidden curriculum only by direct instruction. These entries spur conversations about the countless "unwritten social rules" that we encounter *every* day and that can cause confusion and anxiety.

Hidden Curriculum- Adolescents & Adults by AAPC (\$1.99)

<http://itunes.apple.com/us/app/hidden-curriculum-for-adolescents/id351227770?mt=8>

On a daily basis, we are surrounded by unstated rules and customs that can make the world a confusing place for people with autism spectrum disorders. Learn how to deal with this ever-elusive "hidden curriculum" through real-life examples and suggestions. Items cover topics such as social relationships, community, money matters, workplace, and many others.

iInteract By Assessment and Development Group (\$8.99)

<http://itunes.apple.com/us/app/iinteract/id327907005?mt=8>

iInteract is a portable basic communication board that a child can utilize to communicate their wants and needs on the go. This app provides visual pictures paired with audio feedback. Choose a boy or girl voice.

iMean by Michael Bergmann (\$4.99)

<http://itunes.apple.com/us/app/imean/id364906155?mt=8>

This application turns the device into a letterboard with large easy-to-read keys and word suggestions. It helps individuals with communication and formulating thoughts.

Grace- Picture Exchange for Non-Verbal People By Steven Troughton-Smith (Free)

<http://itunes.apple.com/us/app/grace-picture-exchange-for/id360574688?mt=8>

Grace App is a non-speaking, simple picture exchange system developed for people with Autism to communicate their needs independently. Users can select pictures to form a semantic sentence which they can then share and hear the listener read each word. The cards are large enough on iPad not to need the full screen view.

My Choice Board by Good Karma Applications, Inc (\$9.99)

<http://itunes.apple.com/us/app/my-choice-board/id384435705?mt=8>

This app presents a visual display of "choices" to those with limited communication skills. This gives individuals with Autism, communication delays or learning differences the opportunity to be independent and express their specific needs and wants.

Verbal Victor By Seed Stage Associates (\$6.99)

<http://itunes.apple.com/us/app/verbal-victor/id411749775?mt=8>

Verbal Victor is designed primarily for individuals with emerging communication skills and developmental delays. It has two modes: administrator and user modes. It can be customized to show two, four, or six buttons on each screen. The administrator can also use the administrator mode to create new buttons and record related audio for each button.

Look 2 Learn- AAC by MDR (\$24.99)

<http://itunes.apple.com/us/app/look2learn-aac/id319600029?mt=8>

Look2 Learn is AAC software that allows individuals to work at their communicative level using photographs to express wants and needs. The easy to use system incorporates preloaded vocal output giving the individual the opportunity to use their "voice". Record their own personalized audio and pair it with photos. It comes with over 80 preloaded photos.

Proloquo2go by AssistiveWare (\$189.99)

<http://itunes.apple.com/us/app/proloquo2go/id308368164?mt=8>

Proloquo2Go provides a full-featured AAC communication solution for people who have difficulty speaking. It provides natural sounding text-to-speech voices, up-to-date symbols, powerful automatic conjugations, a default vocabulary of over 7000 items, full expandability and extreme ease of use.

Tap to Talk By Assistix LLC (Free)

<http://itunes.apple.com/us/app/taptotalk/id367083194?mt=8>

This application gives your non-verbal child a voice. It makes communication fun by simply taping on a picture and Tap to Talk speaks. Each picture can lead to another screen of pictures. Tap to Talk allows you to create albums that are individualized to meet the specific needs of your child by visiting the Tap to Talk website.

Voice4mail Speak Your Mail By Helixys, Inc (Free)

<http://itunes.apple.com/us/app/voice4mail-speak-your-mail/id315808098?mt=8>

Voice4Mail allows the user to send voice messages to anyone's e-mail in only three simple steps. You also get a full automatic delivery confirmation of your messages so you know if they were heard and what time.

TextExpander By SmileOnMyMac, LLC (\$4.99)

<http://itunes.apple.com/us/app/textexpander/id326180690?mt=8>

Type faster on your iPhone, iPad, or iPod touch using short abbreviations that expand into long snippets. Compose notes and send them directly to Mail and Twitter clients, or use them in other apps via copy-and-paste. Expand abbreviations directly in other apps which support TextExpander.

TapSpeak Button By Ted Conley (\$14.99)

<http://itunes.apple.com/us/app/tapspeak-button/id359998293?mt=8>

TapSpeak Button modernizes the idea of a mechanical switch that records and plays messages. We have taken the idea and extended it to provide a portable, convenient, and stigma-free tool to use for basic teaching and communication tasks.

TapSpeak Button is especially useful for teaching cause and effect relationships.

TapSpeak Choice for iPad By Ted Conley (\$99.99)

<http://itunes.apple.com/us/app/tapspeak-choice-for-ipad/id408507581?mt=8>

This app provides a complete communication board editor and player that saves up to 75% of the setup time over conventional devices and virtually eliminates maintenance time. Use the DynaVoxjMayer-Johnson PCS library, your own photos or images, and geometric symbols for visual targets. You can record your own voice for playback. This app uses RJ Cooper's iPad Cordless Super-Switch and iPad Switch Interface for external switches.

MyTalkTools Mobile By 2nd Half Enterprises LLC (\$39.99)

<http://itunes.apple.com/us/app/mytalktools-mobile/id324286288?mt=8#>

This app enables people with communication difficulties to express their needs and desires to those around them. Features make it easy to customize how you communicate through a variety of images, pictures, symbols and audio files including human voice. In 5 minutes, you can create your very own content and communicate in a way that YOU choose. All information is backed up on MyTalk Workspace.

SmallTalk Aphasia - By Lingraphica (Free)

<http://itunes.apple.com/us/app/smalltalk-aphasia-female/id310102858?mt=8>

SmallTalk Aphasia provides a vocabulary of pictures and videos that talk in a natural human voice.

It contains a starter set of icons to introduce you to the Lingraphica communication system. When used together with the Lingraphica speech-generating device, it allows you to personalize and expand the vocabulary to thousands of words.

I Can Speak By Lazy River Software (\$29.99)

<http://itunes.apple.com/us/app/i-can-speak/id364733279?mt=8>

I CanSpeak is a very easy to use application designed for people who can not speak. It is so simple to use that anyone can be up and running in just a few minutes.

iComm By Bappz (Free)

<http://itunes.apple.com/us/app/icommm/id351726761?mt=8>

This app is a custom built and easy to use communication system using pictures and words - both written and spoken. It is ideal for children under three until they are able to express their needs through well formed speech.

iPrompts By Handhold Adaptive, LLC(\$49.99)

<http://itunes.apple.com/us/app/iprompts/id313144705?mt=8>

This app is the original picture-based prompting app and is used by parents, special educators and therapists with developmentally challenged and language-impaired individuals. Works great with kids who just need more structure.

Speak it! Text to Speech By Future Apps Inc. (\$1.99)

<http://itunes.apple.com/us/app/speak-it-text-to-speech/id308629295?mt=8>

This app presents the highest quality text to speech App available. Its text-to-speech is so powerful, it reproduces speech which is clear and natural sounding. Copy emails, documents, web pages, PDF files, and more; paste them into Speak it!, and have the text spoken back to you with the highest quality text to speech engine available anywhere. You can even create the same quality audio files of the text to speech which can then be emailed to anyone you like!

<http://itunes.apple.com/us/app/mindmeister-mind-mapping/id291226775?mt=8>

MindMeister is a collaborative mind mapping solution where you can easily create, view and edit conceptual mind maps. Then, you can share them with friends and colleagues online. Automatic synchronization with the www.MindMeister.com service allows you to continue working on your own or together with your friends.

SpellIt Rite Pro By Todor Dimitrov (\$0.99)

<http://itunes.apple.com/us/app/spel-it-rite-pro/id305759482?mt=8>

Spel It Rite is a spelling game with the main objective of selecting the correctly spelled words as fast as possible. For each wrong answer, a penalty of 5 seconds is added to the total time. You can tap on the words to see their definition, synonyms, and hear the correct pronunciations.

Word Scramble Challenge Edition by Zynga (Free)

<http://itunes.apple.com/us/app/word-scramble-2-by-zynga/id329756985?mt=8>

Scramble is the fast fun game of finding words in a jumbled grid. The app allows you to challenge friends or play live with real people online. "play and pass mode" allows you to play with friends.

Sentence Builder by Mobile Education Tools (\$3.99)

<http://itunes.apple.com/us/app/sentence-builder/id344378741?mt=8>

Sentence Builder is designed to help elementary aged children learn how to build grammatically correct sentences. Explicit attention is paid to the connector words that make up over 80% of the English language. Sentence Builder offers a rich and fun environment for improving the grammar of all children.

iA Writer By Information Architects, Inc. (\$0.99)

<http://itunes.apple.com/us/app/ia-writer/id392502056?mt=8>

Writer's keyboard extension (with Word and \square \square keys) lets you navigate via arrow keys and type punctuation without switching the keyboard. Export and import Writer files directly via email, Dropbox or iTunes File Sharing.

QuickVoice® Recorder By nFinity Inc (Free)

<http://itunes.apple.com/us/app/quickvoice-recorder/id284675296?mt=8#>

QuickVoice is the most popular, full-featured iPhone/iPad voice recorder available. Record ideas, voice memos, voice email, dictation, lists, meetings, classes, or entire lectures

Advanced English Dictionary & Thesaurus By jDictionary Mobile (\$0.99)

<http://itunes.apple.com/us/app/advanced-english-dictionary/id293150206?mt=8>

Instead of just listing the words and their definitions, Advanced English Dictionary shows how every word is linked to another. Type in the word "tree" and you will get not only the definition, synonyms and opposites, but the hypernyms (a tree is a kind of what?), meronyms (what are the parts of a tree?) and more

Chronicle for iPad- A personal journal By Steven Romej (\$2.99)

<http://itunes.apple.com/us/app/chronicle-for-ipad-a-personal/id371886793?mt=8>

deas, stories, and life's events. Capture them in a single journal that's easy to carry and offers more than bound sheets.

Chronicle is simple. It's an effective way to start writing more, now. More importantly, the app protects what you write. Export your journal and read it on your computer.

Wikipedia Mobile By Wikimedia Foundation (Free)

<http://itunes.apple.com/us/app/wikipedia-mobile/id324715238?mt=8#>

Wikipedia is now officially on the iPhone! This is our official application and we are working hard on making the absolute best Wikipedia app out there.
